

Investor brief

Orion is a fictional company created for a document research demo.

This fixture exercises PDF ingestion, page citations and source comparison.

The two supplied reports intentionally disagree about one measurement.

Read page 2 in both reports before drawing a conclusion.

Fiscal year 2025 facts

Orion's audited revenue for fiscal year 2025 was \$18 million.

The report covers the entire company, in US dollars.

Orion stores each user's document passages in PostgreSQL.

Row-level security restricts reads and writes to the authenticated owner.

Neither report states a profit figure.
